I. PURPOSE

Ferrell Hospital Community Foundation (“Ferrell Hospital”) is committed to providing healthcare services to people in the communities it serves consistent with its Mission and Values. It is our mission to strive to ensure the financial capacity of people who need healthcare services does not prevent them from seeking or receiving care. Ferrell Hospital provides emergency and other medically necessary care to patients without discrimination and regardless of the ability to pay for such services. The purpose of this policy is to identify the circumstances where Ferrell Hospital may provide free or discounted healthcare services based on financial need of the patient and consistent with applicable Federal and Illinois law. Ferrell Hospital will comply with Section 501(r) requirements of the Patient Protection and Affordable Care Act of 2010 (“ACA”), Illinois Hospital Uninsured Patient Discount Act and Illinois Fair Patient Billing Act and other applicable laws.

II. POLICY

Ferrell Hospital is responsible and relies on strong cooperation from uninsured and underinsured patients to apply for the Financial Assistance Program as soon as possible for their medical services. Financial Counselors, PFS Representatives, and Patient Intake staff shall follow the guidelines established in this policy with regard to the completion and processing of all Healthcare Assistance Program applications.

The Financial Assistance Program is not an insurance program and does not replace benefits and payments that are, or could be, received from government programs (ex. Illinois Medicaid) or other health insurance programs that pay for medical services. Charity is not considered to be a substitute for personal responsibility. Individuals with the financial capacity to purchase health insurance shall be encouraged to do so, as a means of assuring access to health care services, for their overall personal health, and for the protection of their individual assets.

Accordingly, this policy:

- Includes eligibility criteria for financial assistance-free and discounted (partial charity) care, including presumptive eligibility criteria.
- Describes the basis for calculating amounts charged to patients eligible for financial assistance under this policy and limits the amounts the hospital will charge for emergency or other medically necessary care to the amount generally billed (received by) the hospital for commercially insured or Medicare patients.
- Describes the method by which patients may apply for financial assistance.
- Describes how Ferrell Hospital will widely publicize the policy within the communities served by Ferrell Hospital.

-
- Describes the requirements adopted by the Office of the Illinois Attorney General under the Fair Patient Billing Act relating to hospital financial assistance applications forms and the use of presumptive eligibility criteria.

1. Providers employed by Ferrell Hospital to provide services in Ferrell Hospital and its' outpatient departments and rural health clinics.
2. Providers contracted to provide physician services in Ferrell Hospital's emergency department.
